

TERMS AND CONDITIONS FOR BOARDING ATTRACTIONS

- The guide gives you access to a specific entrance with 1 accompanying helper and 2 additional people (3 accompanying helpers in total). It can only be used by the person wearing the wristband. If you are not using the attraction, your helpers must use the normal queue.
- Easy access does not extend to choosing the seats on board the rides.
- The "facilitated access" wristband is personal and must be presented to staff at the attractions with this guide/map on which your reserved tour will be specified to make your visit run smoothly.
- If the attraction is very busy, facilitated access may be suspended; in this case, you will be requested to come back later.
- Easy access is non-transferable and is only valid for the day indicated on the bracelet; if terms and conditions are not respected, the bracelet will be withdrawn from the holder, who may not claim a refund for their tickets or goodwill gesture.
Warning : If the bracelet is removed or torn, it will not be replaced under any circumstances.

GUIDE FOR PEOPLE WITH REDUCED MOBILITY AND THEIR CARERS

ACCESSING THE ATTRACTIONS

The rules for access to different attractions may vary. (see "THE ATTRACTIONS" chart)

Certain attractions are subject to physical restrictions (seats, height, body type, etc.) imposed by the manufacturer to ensure your safety. Operators will direct you to other attractions suitable for you.

Visitors are required to familiarise themselves with the warning notices and instructions at the entrance to the attractions.

For safety reasons, our attractions can only accept a single disabled person at a time.

To help your visit go smoothly, in the event of a number of priority requests on an attraction with restricted capacity, a reservation system will be implemented.

ACCESS TO THE ATTRACTIONS

The attractions and the theatres are accessible via the Rapidus lanes as well as the exits. If you are in a wheelchair, access is via the exits only.

CARERS

You play a crucial role in accompanying visitors with disabilities, especially in the case of visitors with mental disabilities and disorders, autism and behavioural difficulties.

1 of the accompanying persons must be at least 15 years old and must be able to help the person with reduced mobility that he/she is accompanying.

Our staff are not authorised or trained to physically help visitors. It is therefore the responsibility of the accompanying person to physically help the person with reduced mobility. (A maximum of 3 accompanying people).

If there are more than 4 people in your family group, only the beneficiary of facilitated access and the 3-people accompanying him/her can use the specific access; the rest of the group must join the queues.

SHOPS AND RESTAURANTS

Our shops and restaurants are equipped with specially-adapted tills to which you have priority access. Contact a member of staff.

TOILETS

All Parc Astérix toilets are equipped for people with reduced mobility.

FIRST AID

Specific assistance can be sought at any time from the first aid station in the Park.

PERSONS WITH REDUCE MOBILITY

PHYSICAL DISABILITY

ATTRACTIONS

Each attraction in the Park is unique and has its own access conditions. In any situation, people in wheelchairs should be able to get out of their wheelchairs to participate in the attraction.

The table below lists all of the attractions at Parc Astérix. It gives the abilities needed to participate in each attraction and in case of a possible evacuation.
